OBJECTIVE

Aiming to leverage proven technical, interpersonal and organizational skills to successfully fill the described job at your company. Frequently praised as focused and adaptable by my peers, I can be relied upon to help your company achieve its goals.

PROJECT WORK

Personal Website Using HTML & CSS

This personal portfolio highlights my skills and interests. made using HTML5, CSS3 and hosted using Github. | **Portfolio-Hosted** |

Tic, Tac, Toe game using Java

This is a basic Tic-Tac-Toe game using Java, using the concept of OOPs and randomizing functions the computer plays against the user. | **Github** |

Basketball Shot Analysis

This was a Machine Learning web application team project built on the concept of object detection. It analyzes basketball shots by digging into the data collected from object detection. We can get the result by simply uploading files to the Web App. | **Presentation** |
